## COMPRESSED AIR, VOL. II.

MARCH, 1897—FEBRUARY, 1898.

|                                       | PAGE. No. |  | PAGE No.      |
|---------------------------------------|-----------|--|---------------|
| Abstract of Thesis Test of Compressed |           | Compressed Air and Electricity at      |               |
| Air Plant at Jerome Park, N. Y.       | 321 9     | Port Chalmette.....                    | 260-1 5       |
| Air Motor for Copenhagen.....         | 351 10    | Burckhardt & Co, Air Compressor        | 231 3         |
| Air Brake Service.....                | 272 6     | Compound Air Compressor .....          | 248-9 4       |
| Air for Ship Building .....           | 234 4     | Direct Acting Steam Air Com-           |               |
| Air Hoists .....                      | 256 5     | pressor.....                           | 229 3         |
| Air Motor .....                       | 293 7     | Duplex Compressor .....                | 261-2-3-4-5 5 |
| Air Power Reflections.....            | 261 1     | Efficiencies of various Air Brake      |               |
| Air Pump.....                         | 318 8     | Pumps .....                            | 217 2         |
| A Model Compressed Air Foundry        |           | English Type of Air Compressor ..      | 231 3         |
| Plant .....                           | 345 10    | European Vertical Compressor ..        | 261-2-3-4-5 5 |
| A Municipal Power Plant.....          | 224-9 3   | Evils of High Temperatures in          |               |
| Cost of Construction.....             | 225-6 3   | High Pressure Air Cylinders .....      | 218 2         |
| Efficiency of the System.....         | 226-7 3   | Heating of Air End of Pump. ....       | 217 2         |
| Uses of Compressed Air.....           | 227 3     | Hoist .....                            | 273-4 6       |
| Pneumatic Locomotives .....           | 228 3     | Its Production, Transmission and       |               |
| Apparatus for Painting World's Fair   |           | Use .....                              | 285 7         |
| Buildings .....                       | 269 2     | Locomotive.....                        | 235-6 4       |
| Apparatus for Ringing Chime Bells...  | 353 10    | Refrigeration.....                     | 278-9-80-1 6  |
| Application of D'Arcy's Formula....   | 373 12    | Single Direct Acting Air Compressor    | 230 3         |
| A Remarkable Chip .....               | 314 8     | Specifications of Straight Line        |               |
| Automatic Air Brake .....             | 219 3     | Compressors .....                      | 247 4         |
| Automatic Pneumatic Switch .....      | 318 8     | Specifications of Duplex Com-          |               |
| Ballast Injector.....                 | 234 4     | pressor .....                          | 261-2-3-4-5 5 |
| Batcheller Pneumatic System .....     | 315 8     | Vertical Compressor.....               | 261-2-3-4-5 5 |
| Beaumont Motor .....                  |           | Compressed Air Apparatus .....         | 352 10        |
| Berne, Mekarski System at.....        | 195 1     | Compressor Data and Results.....       | 324 9         |
| Berne & Suburbs.....                  | 194 1     | Compound Compression Necessary...      |               |
| Bids on Painting.....                 | 334 9     | Consolidated Pneumatic Tool Co. ..     | 336 9         |
| Boiling Point of Air .....            | 315 8     | Cost of Oil Paint .....                | 335 9         |
| Bolt Cutting Machine .....            | 251 5     | Cost of Operating Air Cars in N. Y.    |               |
| Boyer Pneumatic Hammer .....          | 314 8     | City .....                             | 197 1         |
| Bryce Pneumatic Paint Machine....     | 353 10    | Cost per 1000 cubic feet Free Air Com- |               |
| Car Painting, B. & M. R. R.....       | 206 2     | pressed to 2500 pounds pressure        |               |
| Chicago Ship Building Yard.....       | 234 4     | per square inch .....                  | 168 1         |
| Cinder Hoist.....                     | 333-4 9   | Curve in Pneumatic Carrier System..    | 364 11        |
| Clement Valveless Tool .....          | 381 12    | Curves showing per cent of addition-   |               |
| Cleaning Iron Work of New York Vi-    |           | al Power required in Air Com-          |               |
| aduct.....                            | 353 10    | pressor at different Altitudes .....   | 223 3         |
| Cleaning Structural Iron Pipe by Sand |           | Cylinder Hoist on Foundry Crane....    | 346 10        |
| Blast .....                           | 313 8     | Davis & Roesch Co., New York....       | 347 10        |

# INDEX COMPRESSED AIR, VOL. II.

|  | PAGE No.  |  | PAGE No.  |
|--|-----------|--|-----------|
| Relative Efficiency of Compressed Air Plant due to difference of level above and below Sea Level ..... | 220 3     | The Hartford Air Compressor .....  | 277 6     |
| Review of Test on Four-Stage Ingersoll-Sergeant Air Compressor.....                                    | 319 9     | The Houston Pneumatic Track Sander .....   | 252 5     |
| Robert Ross Zell, M. E. ....   | 368 11    | The Hardie Air Motor.....  | 237 4     |
| Rock Drill Mounted on Swinging Frame .....   | 349 10    | Thomas Doane - Historical Sketch ..  | 233 4     |
| Rule to Describe Isothermal Curves, Mariotte's Law .....   | 379-80 12 | Transmission of Air.....   | 291 7     |
| Sand Blast .....   | 212 2     | Traction, Pneumatic .....  | 187-204 1 |
| Sand Blast in Operation.....   | 313 8     | Test of Locomotive for Mine Haulage .....  | 216 2     |
| Section of Structural Iron, showing Scale and Cleaned Surface.....                                     | 314 8     | Toledo, Ohio, Mekarski Car at .....  | 193 1     |
| Shock and Vibration of Pneumatic Tools.....  | 381-2 12  | Tubes Ruptured under 5760 lbs. pressure .....  | 195 1     |
| Size of Pneumatic Tubes.....   | 371 12    | Trolley Currents .....   | 196 1     |
| Sir Humphry Davy .....   | 357 11    | Up-to-Date Compressor .....  | 249 4     |
| Small Reheaters .....  | 205 2     | Uses of Compressed Air on Board Ship .....   | 215 2     |
| Statement of Trains Handled between Nashville and Shops.....   | 366 11    | Use of Air.....  | 292 7     |
| Stay Bolt Drilling Machine.....  | 331 9     | Use of Compressed Air in Building the Delaware Breakwater .....                          | 325 9     |
| Stay Bolt Practice.....  | 332 9     | General Project .....  | 325 9     |
| Structural Iron Cleaning.....  | 313 8     | McMyler Derricks .....   | 325 9     |
| Straw Stacker, Pneumatic .....   | 318 8     | Air Compressor.....  | 326 9     |
| Successful Use of Pneumatic System of Conveying Mails.....   | 371 12    | Power House .....  | 327 9     |
| Surfacing Railroad Track.....  | 351 10    | Coal Bin and Barge.....  | 328 9     |
| Surfacing Railroad Track by means of Compressed Air.....   | 350 10    | Hogan Boilers.....   | 329 9     |
| Tool for Screwing in Stay-Bolts.....   | 331 9     | Loaded Train.....  | 330 9     |
| Table I, II, III (William Cox).....  | 359 11    | Use of the Pneumatic Chipping Tool in Shaping Refractory Materials for Furnace Work..... | 360 11    |
| " IV, V.....   | 360 11    | ditto Illustrated .....  | 361 11    |
| Table of Values in D'Arcy's Formula  | 374-5 6   | Useful Compressed Air Formulas, by W. L. Saunders.....                                   | 379 12    |
| Terminals of Pneumatic Tube System, cover .....  | 11        | Vincennes Ville Eyraud Compressed Air Tramway .....                                      | 190 1     |
| The Sand Blast .....   | 368 11    | Volumetric Efficiency of a Compressed Air Plant.....                                     | 222 3     |
| The Bostedo Package & Cash Carrier Co. ....  | 371 12    | Volumetric Efficiency of A. C. at High Altitudes, Wm. Cox .....                          | 317 8     |
| " (Description of System) ..   | 371-2 12  | Volume of Fluid Discharged.....  | 358 11    |
| The Flow of Compressed Air in Pipes, by William Cox .....  | 358 11    | W. A. Vallo's Invention.....   | 352 10    |
| do .....   | 373 12    | Water Works at Dixon, Ill .....  | 294 7     |
| The Foster Regulator.....  | 354 10    | Wave Air Compressor, Description—R. Toennes .....  | 383 12    |
| The Cleaning of Carpet.....  | 335 9     | Water Used in Water Jackets.....   | 275 6     |
| Thermostat .....   | 348 10    | Weight of Tubes, etc.....  | 276 6     |
|  |           | Whiteside, Geo. H.....   |           |
|  |           | Yale and Towne Plant.....  | 220 3     |
